

Introduction to Course 2

Session 2.1

FLOWMINDER.ORG

NOMMON

WELCOME!

Online Training Course
Foundations in Mobile Phone Data (MPD) for Policy:
Modern Data Workflows

FLOWMINDER.ORG

NOMMON

Course overview

- 8 online training sessions:
 - Designing MPD for Policy pipelines
 - Privacy-by-design for MPD pipelines
 - Input data quality assurance and cleaning
 - Continuity models
 - Meaningful Locations and Usual Environments
 - Calculating aggregates
 - Quality Assessment of Estimates for Decision-Making
 - From Aggregates to Estimates - population inference from MPD and standard data sources
- 5 self-paced topics:
 - Recap of fundamentals
 - Use case examples (*this session*)
 - Mobile Phone Data: datasets, fields, types
 - Reference and Complementary Data
 - Considerations for Multi-MNO data pipelines

Housekeeping information

- Delivery timeslot for online training sessions
 - Every Wednesday this October - December (last session December 10th)
 - From 12-1pm UTC
- The slides and a session recording will be uploaded to the Open Learning Campus after delivery, for your reference
- Additional resources, quizzes and/or other follow-up will also be made available after sessions
- Try to keep Q&A until the end

Use cases

- 3 example cases of 'real world uses' of mobile phone data
 - Disaster Management (presented by Flowminder)
 - Travel and commuting (presented by Nommon)
 - Tourism (presented by Positium)
- The structure of these videos roughly follow the sessions 2.3.4 - 2.5.1 to show the considerations made in a MPD data led project.

The GDF-MPD window is a multi-partner window funded by the Spanish Government, Ministry of Economy, Commerce and Business. The GDF-MPD program is jointly managed by DEC (DECDG, DIME), Poverty and Digital Development Global Practices in technical partnership with the International Telecommunications Union (ITU).
